You can play and listen to recorded messages, and save them in Inbox. When you want to play a message, select one of the listed messages and then click play button in the bottom section.  
 You can input a title of each message.

### [Message icons]

With a top icon of each message, you can distinguish a kind of a message.

+Voice message recorded by answering machine

+Voice message recorded on line

+Video message recorded on line

"I" on left top corner of icon means incoming call. "O" means outbound call.  
 The message without icon means answering machine without recording.

### [Save voice/video file]

When you save recording file, click each button "Save voice file" or "Save movie file".  
 You can export a audio file as in wave, OggVorbis, mp3 format (\*).

\*If you want to output the mp3 format, WindowsMediaPlayer10 more is required.

### [Play by an external application]

Voice/Movie files are managed in WAV / MP3 / AVI format each.  
 You can play them by prescribed application of each data format on the OS, when you click the following buttons.  
 WindowsMediaPlayer, RealPlayer, QuickTime, ...

### [Operation of messages]

You can [Call sender], [Delete message] and more by selecting a message and right-clicking it.

[Call sender] : make skype call.

[Show setting of answering service] : show "Setup to Answer" according to the message which it's recorded by answering machine.

[Launch Program (Initial setting of answering)] : run the extension program to recorded message. The extension program of "Initial setting of answering" are used. (ex, You can mail the recorded message.)

[Delete message] : move messages to trash box.

### [Create new folder]

When you create a new folder, click the right button of "Inbox" folder tree, and choose "Create new folder".

### [Trash box]

Deleted messages move to "Trash" box.

You can restore the deleted data by menu "Return it to where it was", because data are not yet deleted in a hard disk.

You can't restore the data which were deleted from "Trash" box so that it is completely deleted from a hard disk.
